

Evans Memba

Profile

I am a passionate and skilled full-stack web developer with more than 4 years of experience in building dynamic, responsive, and scalable web applications. I am Proficient in front-end and back-end technologies, including React, Next js, HTML, CSS, Tailwind CSS, Redux, Node js, Express, Prisma, MongoDB, and REST APIs. I have honed my expertise through strong problem-solving skills, a keen eye for detail, and the ability to collaborate across teams to deliver high-quality product. I am available and open to new opportunities.
